

ASPHALT TEST

75 Determination of asphalt mix composition

76 Marshall stability and Indirect tensile testing apparatus

77 Asphalt sample preparation

78 Rheological properties of bituminous mixtures

79 IPC Global Dynamic testing

80 Road quality testing

With a combined 80 years' experience, the Asphalt division of CONTROLS and IPC Global are pioneers and global leaders in construction material testing and dynamic asphalt test equipment. This know-how and experience has been accumulated in collaboration with the academic world and major international laboratories, as well as an active participation in trade associations and reference Standard organizations from around the world.

Superpave™ methods are directing the market of asphalt pavement testing towards more advanced systems and the new division is aligned with these requirements.
